

Coolant Ready Mix RAF 11

Description

Coolant Ready Mix RAF11 is a ready-to-use mixture based on ethylene glycol. The antifreeze contains no amines, nitrites or phosphates and offers ideal protection from frost, rust and overheating through its special inhibitor formulation. This therefore provides reliable vehicle performance all year round.

LIQUI MOLY recommends this radiator antifreeze for vehicles that require a product with the following following manufacturers' approvals:

Behr
BMW GS 94000
CUMMINS 85T8-2
MB 325.0
MB 325.2
Alfa Romeo 9.55523
Chrysler MS-7170
Fiat 9.55523
Lanca 9.55523
Iveco Standard 18-1830
Volvo Cars 128 6083 / 002
Opel/GM GME L1301
Saab 6901 599
Saturn
Jl Case JIC-501
Lada TTM VAZ 1.97.717-97
MAN 324 Type NF
MTU MTL 5048
Perkins
Porsche TL-774 C
Toyota Motor Corporation
Volvo Construction 128 6083 / 002
Volvo Trucks 128 6083 / 002
VW specification G11
Audi TL-774 C
Seat TL-774 C
Skoda TL-774 C
VW TL-774 C

as well as for vehicles that require a radiator antifreeze of this quality.

Properties

- prevents operational malfunctions
- contains no amines, nitrites or phosphates
- ready for use
- outstanding corrosion protection
- provides outstanding protection against overheating
- prevents the cooling system from freezing up
- for extended change intervals (note manufacturer's instructions)

Technical data

Frost and overheating protection	-20 bis +104 / -20 to +104 °C
Base	Ethylenglykol mit Inhibitoren / ethylene glycol with inhibitors
Density at 20 °C	1,05 g/cm ³
Color / appearance	blau / blue
Flash point	> 100 °C
Shelf life in original sealed container	60 months

Areas of application

Suitable for all cooling systems and engines (including aluminium engines) in passenger vehicles, commercial motor vehicles, buses, agricultural machinery and stationary engines/machines where coolant system protection of this quality is required.

Application

Clean the coolant system with LIQUI MOLY Radiator Cleaner (item no. 3320). Empty the coolant system, rinse thoroughly with water and fill with Coolant Ready Mix RAF11. Disposal is made according to the local regulations. The change intervals vary according to the manufacturer's instructions. Coolant Ready Mix RAF11 is mixable and compatible with radiator antifreeze containing silicates according to VW standard G11 – TL 774-C (LIQUI MOLY Radiator Antifreeze RAF11) or original silicate-free radiator antifreeze according to VW standard TL 774-D/F (LIQUI MOLY Radiator Antifreeze RAF12 Plus or LIQUI MOLY Coolant Ready Mix RAF12 Plus).

Available pack sizes

1 l Bottle plastic	20660 D-GB-I-E-P
5 l Canister plastic	8809 D-GB-I-E-P
20 l Canister plastic	8822 D-GB
